Committees & Organizations

Schedule of Committee Commission Appointments, 1962-1963

NOTE: The Committees listed herein have been authorized by President John R. Kernodle, and/or are required under the Constitution and By-Laws.

Particular note should be taken of the authorization of the House of Delegates of a Commission form of organizational activity and that all Committees, excepting Committee on Nomination, Committee on Negotiation, and Committee on Grievances, are segregated under the respective Commission in which the function of the committee logically rests. This will tend to eliminate overlapping and duplication in activity programs and result in coordination of the work of the Society in a manner to lessen the work of the delegates in the Annual Meeting of the House of Delegates.

(The President, Secretary and Executive Director of the Society are ex-officio members of all Committees and, along with the Commission Chairman, should receive notice of meetings, agenda and minutes of committee meetings during the activity year.)

What is the real answer to weight control?

SO YOUR WEIGHT IS BACK TO NORMAL... but what next? Another round of dieting in a few months? Another monotonous siege on the latest "miracle diet"... more pills... or another try at skipping one meal a day?

None of these is the answer to a chronic weight control problem. *The only satisfactory solution* is to adjust one's eating habits to meet the body's need for today and for all years ahead. This can be done without giving up all one's favorite foods, without monotony, and without the psychological and physical risks involved in radical dieting programs. "Fad" diets may lead to a loss of excess weight, but they cannot provide a permanent solution to the problem because they do nothing to correct faulty eating habits.

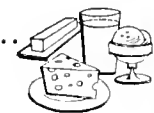

WEIGHT REDUCTION CAN BE ACHIEVED by consuming moderate amounts of the common foods which everyone likes. How this can be done is outlined in instruction sheets for calorie-restricted diets which are obtainable by mailing the coupon below. Sample menus are given, consisting

of foods selected from the four basic food groups, which provide all the essential nutrients in recommended amounts. Only calories are restricted.

REDUCING DIETS PROVIDE LITTLE "CUSHION" FOR MISTAKES in food selection. When combined with meat and eggs, vegetables and fruits, bread and cereal... milk and other dairy foods offer a safeguard against a deficiency of some of the most critical nutrients in such regimens. The high proportion of protein to calories accompanied by liberal amounts of certain vitamins and by a large contribution of calcium makes dairy foods particularly valuable in times of low energy intake.

WHENEVER WEIGHT CONTROL DIETS ARE RECOMMENDED, they should include milk and other dairy foods each day.

The nutritional statements made in this advertisement have been reviewed by the Council on Foods and Nutrition of the American Medical Association and found consistent with current authoritative medical opinion.

FIFTY YEAR CLUB

The House of Delegates of the Medical Society of the State of North Carolina in May of 1953, authorized the Executive Council of the Society to establish a special recognition for those physicians residing in the State of North Carolina who were members currently of the State Medical Society, who had established legal practice of medicine and who had actively practiced medicine during their life time for a period of fifty years.

Listed below in alphabetical order are the names and addresses of those physicians residing in North Carolina, whom the Medical Society of the State of North Carolina has recognized as members of the **FIFTY YEAR CLUB** of the State Medical Society. This list will be added to from year to year and likewise subtracted from as losses to this club group are sustained and reckoned.

VITALITY

At the Hospital Saving Association, we have developed a concept of health care that is both innovative and practical. A concept that observed the needs of the individual and the community. A concept that recognizes the importance of the individual's health and the role of the community in maintaining it. A concept that is the result of a long and careful study of the health care system. A concept that is the result of a long and careful study of the health care system. A concept that is the result of a long and careful study of the health care system.
